DESSER

THE HOME OF RATTAN FURNITURE SINCE 1919

Established in 1919, Desser & Co is a fourth-generation family business providing luxury rattan furniture for over 104 years. And today, we are still passionate about delivering high-quality products, expert advice, and friendly customer service.

Our selection of indoor furniture is expertly hand-crafted by the best artisans from sustainable rattan harvested in Indonesia. Furniture made using the traditional weaving technique is robust, long-lasting, and durable.

All our indoor furniture cushions are hand-sewn to the highest standard at our warehouse in Manchester, utilising premium upholstery fabric.

There are more than 40 fabrics available, including the ground-breaking Aquaclean fabric, so there is something for every style and preference.

Whatever the purpose of your indoor space, we have several options to choose from. All our cane conservatory suites are available to purchase individually or as a set. Our modern wicker furniture looks great in any room of the house as an accent piece, and our new mango wood furnishings will complement the functional aspects of your home.

We also supply a luxury line of outdoor fabric furniture that is currently advancing the outdoor market. This collection has been selected for its weather-resistant technology, modern designs, and all-year usability.

OVER 100 YEARS OF FAMILY HERITAGE

Whilst serving on the front line in Belgium, Isaac Desser met Flemish craftsmen who were producing diverse types of basketware... and an idea was born.

1918: On his return from WWI, Isaac Desser begins to import basketware from Belgium for sale in retail outlets from his mother-in-law's terrace house on Whitfield Street, Manchester. Along with her family, Isaac's wife helps package goods for consumers all around the UK.

1919: The family relocated the company to a new location on Cheetham Hill Road. At this point, Simon, Isaac's brother, joins the family firm, and Desser and Co is founded.

1932: Isaac's son, Morris, enters the business, falls in love with the secretary, Miriam Marcus, and the two eventually get married. For many years to come, Miriam contributed to the success of the business as Mrs. Desser.

1945: Ronnie Stewart, Simon's son-in-law, joined the company after WWI, which is now located on Lord Street in Cheetham. Tragically, Simon passed away following this move. The company continued to grow during the 1940s, and it relocated to a sizable building on Robert St. in Cheetham.

1970: Gordon, the son of Morris, and Michael and Barry, the sons of Ronnie, joined the company. The company relocated to an impressive, purpose-built warehouse and showroom on Bradstone Road in Cheetham, where we are still based today.

1974: Isaac Desser died after dedicating his life to his work until his 80th birthday. The fourth generation of the family business was formed in 1987 when Simon, (Gordon's son and Isaac's great-grandson, joined the business.

1997: Morris Desser's passing in April 1997 brought grief to the company once more. Later in the year, Ronnie's grandson Mark, who is the son of Michael, joined the company.

2016: David, Ronnie's grandson, and the son of Barry, joined the company.

2019: Desser and Co celebrated its 100-year anniversary with the launch of the Centurion Collection.

In addition to celebrating four generations of a family-run business, we also have devoted employees who have worked for the business for more than 30 years and have brought their own families with them, making this a true family affair.

**QUALITY
IN MIND**

DESSER FURNITURE CARE

Cane is a resilient material that is easy to care for and, when kept in a dry environment, will last a lifetime. We recommend wiping the frames of our suites with a soft, damp cloth to remove dust and dirt. Avoid cleaning products that contain benzene, thinners, or abrasive creams, which will damage the rattan of the furniture. Rotating the cushions on a regular basis will also limit uneven fading of the fabric caused by direct sunlight.

QUALLOFIL TECHNOLOGY

Quallofil technology is an innovative fibre filling for furniture cushions designed for comfort and durability. The design of the 3-dimensional spiral crimp and 4-hole fibres ensure the cushion springs back to its original shape and feel, providing excellent support year after year. We use Quallofil cushions on our Seville suite and swivel rocker chairs.

PIRELLI WEBBING

We use Pirelli webbing to give our conservatory furniture strength, tightness, and shape. Natural rubber straps are used to support the frame, providing a solid foundation for the upholstery.

FABRICS

Our beautiful range of hand-selected fabrics has a high, long-lasting thread count and is available in different patterns, colours, and grades. Whether you are looking for florals, checks, or a robust fabric that is family and pet proof, you will find something to suit your style and produce a truly bespoke suite perfect for your home.

AQUACLEAN WITH SAFE FRONT®

Aquaclean fabric with SAFE FRONT® components protects against viruses and bacteria as standard, effectively reducing its activity. That, teamed with Aquaclean components, limits the penetration of viruses and bacteria into the fabric, which also has a stain-resistant property, being able to clean away mud, wine, ink, and other household stains just using water.

Request your fabric samples by asking a Desser & Co representative or email: sales@desser.co.uk

QUALITY BUILT

To ensure you are happy with the quality of your furniture, we conduct rigorous quality checks at each stage of the assembly process. We assemble the frames, hand-sew the cushions, and pack your items for delivery at our warehouse in Manchester.

DACRON WRAP

A high-quality polyester fibre, Dacron Wrap, is wrapped around the form inserts and upholstery fillings to produce a softer, rounder look and to prevent loose, worn areas from forming.

SUSTAINABILITY AT THE FOREFRONT

Our range of indoor furniture has been handmade using high-quality rattan, sourced from Indonesia. Where we work closely with local factories and growers to protect the country's ecosystem.

Rattan is ecologically important. Growing at a rate of 2-3 cm per day, the renewable material is cultivated in the rainforest and can only exist by growing against established trees and tropical terrain. The farming of rattan encourages the preservation of the rainforest, providing a habitat for endangered animals and converting CO2 into clean air.

Compared to wood, rattan grows exceptionally quickly and is ready for harvest in 2 years, a process that can take up to 30 years for wood to replenish. Once harvested, the tip of the vine is replanted so the plant can grow again and protect the forest from degradation.

Rattan farming also provides a reliable income for some of the poorest people living on the fringes of the forests, helping generate employment and build communities in these areas.

When buying Desser & Co furniture, you can trust it was produced under ethical and sustainable conditions—we promote Fair Trade and follow a low carbon emission business plan.

CREATING YOUR SUITE

1

SELECT YOUR RANGE

Browse our selection of natural, light oak or grey wash frames available in a wide variety of styles, including cane pole, wicker weave, and upholstered suites.

2

SELECT YOUR ITEMS

Build your suite; choose from an array of corner units, traditional sofas, armchairs, and speciality swivel chairs. Then add your accessories to complement the suite, including coffee tables, side tables and footstools.

3

SELECT YOUR FABRIC

Finish your chosen range by selecting a design from our diverse collection of over 40 fabrics. You will find our collection of fabrics on pages 38-40, ranging from our entry level B-grade fabric to the advanced Aquaclean fabric with SAFE FRONT® technology that protects against viruses and bacteria, effectively reducing their activity by more than 91% compared to untreated fabrics.

CONSERVATORY FURNITURE

For over 104-years we have been creating stunning cane furniture perfect for living rooms, conservatories, or summerhouses.

Royal suite pictured Blush Tweed fabric

MADE TO ORDER

HAND-CRAFTED FRAMES, EXCLUSIVE DESIGNS

Our Desser & Co suites, which come in a lovely assortment of styles and designs, make a wonderful complement to any living room, conservatory, or summerhouse. You will find the perfect suite with our carefully picked choice of fabrics and cushions, all produced in the UK, which includes trendy upholstered furniture sets, elegant wicker weave structures, and hand-crafted cane pole frames.

UK MADE CUSHIONS

All of our indoor cushions are made-to-order at our Manchester facility by a skilled group of cutters and sewers. We only use high-grade fabric in a wide range of colours and designs that is specifically made to suit our frames and complement your decor.

FABRIC COLLECTION

Each fabric in our substantial range has been hand-picked with care to provide a comprehensive collection of over 40 fabrics, allowing a personalised suite to match your style. Every cushion for our conservatory and wicker range is hand-sewn in the UK at our own warehouse in Manchester, using the highest performance foam bases and fibre filling – all conforming to British Fire Safety (BFS) standards.

desser.co.uk

OUR ENTRY LEVEL B - GRADE FABRIC (B)
Made from polyester mix, our B-grade fabrics are machine washable at 30°C, on a low spin. Dry clean velvet and floral fabrics for best cleaning results.

OUR C-GRADE FABRICS (C)
A hard-wearing blend of polyester and cotton-based fabrics, please dry clean the C-grade fabrics for the best cleaning results.

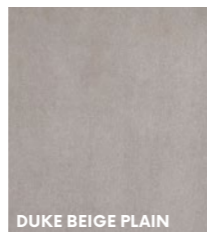

Disclaimer:
Every effort has been made to present fabrics accurately as possible given the limitations of the printing process.
Colours may vary from these illustrations.

AQUACLEAN FABRICS

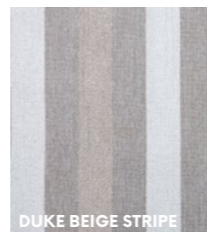

Aquaclean is a revolutionary stain-resistant fabric treatment that allows you to clean stains using water only. This provides you with simple fabric maintenance in the minimum amount of time.

Aquaclean fabrics also contain a Safe Front Hygiene Protector component that protects against viruses and bacteria.
